

# High Up Your Tree

The Charlatans

By the look in your eyes i can tell all is lost and you're leav  
ing  
So come down from your tree and join in with the circle you kee  
p in

I am so touched by your love  
you could lead me astray  
I could meet you down river on a lonely day  
By the look in your eye I could tell you're not mine today

Don't pass me by  
You're looking at me like I'm from mars  
Just can't let you pass me by  
And if all the love I have could make you laugh  
And if all the tears I cried could make it better

I've lost and it cost  
I've found the makings of a man  
I am so touched by your love  
you could lead me astray  
I could meet you down river on a lonely day

Don't pass me by  
You're looking at me like I'm from mars  
Just can't let you pass me by  
And if all the love I have could make you laugh  
And if all the tears I cried could make it better  
And if all the things I do  
Should break your heart in two  
Then the love I'd give back to you  
Would last forever
