

Love Is The Key

The Charlatans

I found you
I turned you in to America
I believe in you
Telling you
The kind of mind
Running wild
I will do it with you
I will do it without you

Oh my, my, my come on dry your eyes
There's only one kind of mind who truly satisfies
Love is the key
I will sacrifice my soul to free you from misery

Love is the key
Love is the key
Love is the key
Love is the key

Come feed me
Come feed me with your attitude
Your lucky creature
A lady
The kind of mind
Can truly satisfy
I will do it with you
I will do it without you

Oh my, my, my come on dry your eyes
There's only one kind of mind who truly satisfies
Love is the key
I will sacrifice my soul to free you from misery

Love is the key
Love is the key
Love is the key
Love is the key

I can feel with you
I can feel with you
Like a wandering star a hungry will get you
One kind of mind
Will truly satisfy
Your lucky creature you!
Miss you

I found you
I turned you in to a miracle
I believe in you
Telling you

Oh my, my, my come on dry your eyes
There's only one kind of mind who truly satisfies
Love is the key
I will sacrifice my soul to free you from misery
