

Not Forgotten

The Charlatans

I know where the past begins
And the future ends
Time is my friend

Hurt me with every
Squeeze of my heart
I didn't see it then
I see it now
My friend

I've taken every opportunity
Tried to be everything you'd want me to be

So, why do you have to talk to me like that?

Maybe the devil
Took your name
Hung it round your neck on a chain
There's debts that need paying

Don't leave town
The rain is on its way

I've taken every opportunity
Tried to be everything you'd want me to be
So, why do you have to talk to me like that?

I've taken every opportunity
Tried to be everything you'd want me to be
So, why do you have to talk to me like that?
