

Opportunity Three

The Charlatans

A boy with a stronger emotion
Has nothing on me I've got this one
Going round round round this sensation I found in my soul
Love as it touches perfection
A balance of truth and correction
Going round, round, round this sensation I found again

Station to station
This sensation
A celebration
I won

Going round, round, round this sensation I found in my soul
Going round, round, round this sensation I found again

Ooh, ooh, ooh

Station to station
This sensation
A celebration
I won

A stranger in awe of the chaos
In reality he never could save us
Going round, round, round this sensation I found in my soul
Going round, round, round this sensation I found again
Again, again, again, again
This sensation
I fucking won
