

Smash the System

The Charlatans

I think I'm in love
All fleet footed and fancy free
I've grown up tuff
But all the loser's seem to worship me

I don't belong here in your garden
I should be up there on your thrown
Smash the system
Smash the system
Smash the system
Smash the system
I know I should play our games but I don't deal with crooks
I'll tell you lies smash the system and then burn the books

I don't belong here in your garden
I should be up there on your thrown
Smash the system
Smash the system
Smash the system
Smash the system
Smash the system
Smash the system
I didn't mean to, I didn't mean to say goodbye...

I know I should play your games but I don't deal with crooks
I'll tell you lies smash the system and the burn the books

If this is love
Why then is it that we can't agree
Your not so tuff and all the loser's still believe in me

I don't belong here in your garden
I should be up there on your thrown
I don't belong here in your garden
I should be up there on your thrown
Smash the system
Smash the system
Smash the system
Smash the system
Smash the system
Smash the system
Smash the system
Smash the system
