

The Same House

The Charlatans

We can live in the same house
We can live in the same house
We can live in the same house
We can live in the same house
We can live in the same house
We can live in the same house
We can live in the same house
We can live in the same house
We can live in the same house

Sitting out talking on the lawn
And we smile till dawn
It all seems the same
Except it's going slow and it's getting slower
And it's like we've flown when we close our eyes

We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes

Ooh

Like a tribe
We keep these things alive, we are like a tribe
We keep these things alive

We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes
We can live in the same house
We can live in the same house

All is new
Old ways are in the past
Your skins are shedding faster since
You got tied to the mast

All is new
Old ways are in the past
Your eyes are open wider now
That it's yours at long last

We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes
We can live in the same house

We can live in the same house
We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes
We can live in the same house
We can all wear matching shoes
We can live in the same house
We can live in the same house
We can live in the same house
