

Totally Eclipsing

The Charlatans

Remembering
On man, [?]
Sincerely in delivery
Ah-ah

Just be
That part of me
Was in everybody else's hands
Ah-ah, ah-ah

Is this our time again
A time we really can achieve
Becoming what we could become
Or am I being naive
We continue because we get along

Totally eclipsing from the start
Absolutely nixing on my part

When I realized it was meant to be
I fell from grace
In the same place you fell right on your face
Let's be just hazed

How long has it been
Since I had a cigarette
I'm not counting
But has it been an hour yet
We continue because we get along

Totally eclipsing from the start
Absolutely nixing on my part

Is this our time again
A time we really can achieve
Becoming what we could become
Or am I being naive
We continue because we get along

Totally eclipsing from the start
Absolutely nixing on my part
Totally eclipsing from the start
Absolutely nixing on my part
