

Way Up There

The Charlatans

How come you've slowly slowly
Become what has become of me
She is your ordinary brother [???]
Oh what do you think [???] goodness be

My thought has yet to surface
With a surface clean would you know it's me
Here comes another [???]
Another [???], another as should be

She never knew my name
But it always seemed the same
She never knew my face
But it always seems so miserable

How come you can't [???]
And in return you got a hold on me
With open [???] you know I'm yours you gotta look
Look what you've done to me girl [???]

She never knew my name
But it always seems the same
She never knew my face
How could it always seems so dull

She never knew my name
But it always seemed the same
She never knew my face
But it always seems so miserable

She never knew my name
But it always seemed the same
She never knew my face
But it always seems so dull

And you knew she's so dull
She can't even be
This is []

Aaaaaah
