

# Faraway Star

The Chordettes

Star light, star bright  
First star I see tonight

Faraway, faraway  
Faraway star  
How did you ever  
Get up where you are  
I can get dizzy  
Just looking above  
You are as far  
As my faraway love

Faraway love, faraway love  
Who can be happy  
With faraway love

Wish that I may  
Wish that I might  
Grant me the wish  
That I'm wishing tonight

Once must he seem  
Distant from me  
Even when we are  
As close as can be

Powerful star  
Wonderfully wise  
Let me be seen  
By his faraway eyes

When I am near  
When I am near  
Couldn't he be more  
Aware that I'm here

We're holding hands  
Inches apart  
Show me the way  
To his faraway heart

Faraway, faraway  
Faraway star  
How did you ever  
Get up where you are
