

No Other Arms, No Other Lips

The Chordettes

No other arms, no other lips
No other love but you

We've had our stormy weather
We've had our sunshine too
We've shared them both together
And I'm still here with you

Sometimes I made you happy
Sometimes I made you blue
But love kept us together
And I'm still here with you

No other arms, no other lips
No other love beside me
No other star of love
Above to guide me

Someday you'll go to Heaven
As all good angels do
I'll find my way to Heaven
So I'll be there with you

No other arms, no other lips
No other love but you
