

Vanishing Man

The Church

Sinister bastard
Your casket groans from sins
You pulled a fast one
Slug a drug from plugins
Narcissus black
It's grim up to the brim
You little cracker
Watch your back pilgrim

Can't stop it
We got it coming
We got a calling, majesty and power
Like you know you should
We got a feeling
We cannot feel it
We gotta send this majesty and power
Like you know you could

And when you bring the fire
Majesty and power
Majesty and power
Majesty and power
Majesty and power

Vanishing man
You can appear as you like
You took her demand
Bestrode it like a bike
Lucifer Jones
In heck up to your neck
A big bag of bones
Oh watch your spell check

Can't stop it
We got it coming
We got a calling, majesty and power
Like you know you should
We got a feeling
We cannot feel it
We gotta send this majesty and power
Like you know you could

And when you bring the fire
Majesty and power
Majesty and power
Majesty and power
Majesty and power

Beelzebub brown
It's hot holed in this grotto
You dang it down
I frown at you
You're blotto

Like you know you should
Like you know you could

And when you bring...

(Majesty and power)

(Majesty and power)
