

## Here And There

The City Harmonic

Heart beat, little heart  
There You are, there You are  
I came kicking, I came screaming:  
I was so used to the dark

You whispered "light" and lit a spark  
And there You are, there You are  
I've been living, I've been dying  
And Your heart beats ever on

You were  
You are  
You are  
To come

If I'm barely hanging on:  
Here You are, here You are  
I come crawling, I come running:  
Here You are with open arms

No, my heart's not giving up  
Here You are, here You are  
You've been living in my dying  
Now I'm dying for Your heart

You were  
You are  
You are  
To come [x2]

My heart is like Pandora's Box  
With just a crack it's opened up  
To beat anew when all is lost  
To run, crawl, come home.

You are to come
