

Could a spark of Your love light a fire in me  
Just a spark warm my cold heart  
It's the living that breathe  
When I breathe in  
Hope I breathe in  
Create some meaning again  
And I breathe in, peace will be there  
Just a stream of love  
Ohhh

This little light's gonna shine  
With just a spark to light a fire  
Just a spark

Could a spark of Your love light the whole church on fire  
When we care for our neighbor  
More than we care for style  
When we breathe in  
Hope we breathe in  
Create some meaning God  
When we breathe out  
Peace will breathe out  
Just to breathe out love

This little light's gonna shine  
With just a spark light a fire  
Just a spark

Just a spark could change the heart  
Just a spark come change my heart  
Just a spark is just a start  
Light a fire in my heart

Light a fire in my heart  
Light a fire in my heart  
Light a fire in my heart  
A fire in my heart  
With just a spark
