

Something Worth Living For

The Clark Sisters

What is life (is it really having what you want)
What is life (is it really having what you need)

Life is the word of God
Give you something to believe
And life is Jesus Christ
And that is all you need (that is all you need)
His everlasting peace and joy
I found Christ

What is life (is it really having what you want)
What is life (is it really having what you need)

Life, it is the word of God
Give you something to believe
And life is Jesus Christ
And that is all you need (that is all you need)
His everlasting (peace and joy)
Peace and joy (peace and joy)
I found Christ in life

I found something (I have)
I found something worth living for (I really found something worth living for)
I found God, I found joy, I found happiness
I found something oh yes I have (I have)
I found something worth living for (I really found something worth living for)
I found light, I found Christ, I found joy (oh, oh, oh)

I have found something (I have)
Oh yes I have
Seems I found something worth living for (I really found something worth living for)
I found love, I found peace, I found joy
I found something, oh yes I have (I have)
I know I found something, I found something worth living for (I really found something worth living for)
I found joy, I found joy, I found peace (oh, oh, oh)
I really found, I found something (I have)
I really found something (I really found something)
I found something worth living for (I really found something)
I found peace and joy (I really found something)
I found something worth living for (I really found something)
I found love, I found peace, I found joy
[fade out]
