

One Man Army

The Classic Crime

I've been unalive
Been sleeping for says in this comatose state
I've been unalive
Prone to hide from the messes that I've made
I've been unalive (2x)
I used to let fight the battles before me
But now I stand alone to prove you right
Just a one man army
I used to let you fight the giants before me
But now I stand alone by a fire where I burn my plans to warm me
I've been unalive
Waa-ohh
I used to let you fight
The battles before me
But now I stand alone
Just a one man army
I use to let you fight
All the giants before me
I use to stand alone, alone, alone
