

# Arise of the Mammon

## The Claymore

Nuclear fire: Efface the moonlight,  
Hell's wrath breaks loose, ablazing the night.  
Ghastly effigies haunt the land, rape the innocent's souls.  
The lightbringer's time has come, hatred's beyond control.

Heads have to roll  
And death takes its toll  
Lost all control  
- The demon arises -

Fire on the street  
An astral accretion  
Mankind's defeat  
- The demon arises -

NOW!

Spread two-faced the tale, who's the greatest fool?  
Divide et impera, ancient lore to rule the earth  
Corrupting demon Mammon, enslaves the raped souls.  
The lightbringer's time has come, hell's out of control.

Heads have to roll  
And death takes its toll  
Lost all control  
- The demon arises -

Fire on the street  
An astral accretion  
Mankind's defeat  
- The demon arises -

NOW!

Exaudi nos, Satanas  
Surge te ex abyssu!  
Sume animi nostri  
et face nos minister tuus  
O princeps tenebrorum  
Relinque abyssum  
Rege orbi.  
Face ovis servis  
Et cena corpora vestris  
Surge ex flammis!  
Appare!
