

Stop Drinking My Wine

The Clik

Stop wasting my time
Girl I'm out the door
Buy another bottle
Buy another bottle

Don't knock on my door
Unless you've got some more
Stop smokin' my dime
Buy another bottle
Buy another bottle

So if you think the trick's on me
You'll see the light
There's no use to pretend
Who's wrong, who's right?
My heart can't make amends
Outside your door
I've waited here longer
I've waited here longer
I'm the kind of man she said she's looking for

GUITAR SOLO

REPEAT

So if you think the trick's on me
You'll see the light
There's no use to pretend
Who's wrong, who's right?
My heart can't make amends
Outside your door
I've waited here longer
I've waited here longer
I'm the kind of man she said she's looking for
