

Funny

The Contours

Funny though it may seem
By the way, you look at me

You just don't know
How deep my love
You are my everything
You realize my dream

In my dreams I find
You should believe
Oh funny

Open, open up your heart
I should have been right from the start
You came to me like an angel from above
Oh, come to me, come to me, give me your love

Funny though it may seem
By the way, you look at me

You just, you just don't know
How deep my love
I say, you just, you just don't know
How live long your love love love
I say
You just, you just don't know
How you love goes
