

It Must Be Love

The Contours

I can't sleep at night, I wake up baby in a terrible fright
'Cause the thought of losing you makes me feel so doggone blue
There's something about you baby that makes my heart beat fast
My soul's on fire Virginia, how long will it last?

Do you really, really love me? (Do you really, really love me?)
Do you really, really love me? (Do you really, really love me?)
Do you really, really love me?
Or am I living in the past?

Heey, now, now, whoa, whoa, whoah
Yeah, yeah, yeah, yeah, yeah
Feels like I'm falling, falling from the mountain top
Going too fast and I can't stop
What could it be? (What could it be?)
What a life for me (What a life for me)
I can't understand (I can't understand)
Do you really love me baby or do I stand a chance?
Seems like I'm falling, falling
Baby, baby falling, falling
(It must be love)
I'm falling, falling
Baby, baby falling, falling
(It must be love)

Hey, hey!
There's something about you baby that makes my heart beat fast
My soul's on fire Virginia, how long will it last?

Do you really, really love me? (Do you really, really love me?)
Do you really, really love me? (Do you really, really love me?)
Do you really, really love me?
Or am I living in the past?

Feels like I'm falling, falling from the mountain top
Going too fast and I can't stop
What can it be? Now, now, now, now
What a life for me (What a life for me)
I can't understand (I can't understand)
Do you really love me baby or do I stand a chance?
Seems like I'm falling, falling
Baby, baby falling, falling
(It must be love)
Seems like I'm falling, falling
Baby, baby falling, falling
(It must be love)
