

## You Better Get in Line

### The Contours

You are the queen of the floor  
And I loved you so much  
But I couldn't dance so good  
Now you want my ring  
Because I'm the king  
But can you dance like I thought you could

You better get in love  
You know you're looking so fine now  
You got to wait for your turn  
You, show me, me what you can do

You got to follow me through  
When I say move  
I want you in the groove  
Move, move, move

Do what I had to say, baby  
Do what I choose it

You're lookin' good like I know you would  
Let's do the locomotion  
You're the best  
Cause you're passin' the test

If you can twist  
Oh baby you can't miss me  
You know you win my heart  
Every angle of my heart

Come on, come on  
Let's do the wobble  
Wobble, wobble  
Mash potato, mash potato  
Mash potato  
Hurly curly...
