## The Coup

I'm risin' like the vapors from the dank  
Fuck the mirror in my pocket, had to break it for a shank  
What you thank? Walk the plank, is my motherfuckin attitude  
Right hand on the wheel, elbow out the window, leanin

to the latitude, actin rude can get you blown up, to'n up  
But these teeny-boppers ain't gon' live to be a grown up  
My motherfucker done got hisself into a spot  
I got this nine, but it jam on every fifth shot

If we gon' do this, we could this, but I'm trippin off

the factor that these bastards put me through this

Nuttin ass tricks, gangin up on my homie

Now I gots to do some shit, to leave yo' kids lonely

The level of my life should be higher

Told E-Roc to jump in, and get up out the line of fire

Made a three point turn, as the three joints burned

off they lips, actin hard wit they face held firm

Calmly stated my acquaintance was no punk

You got a gat, I got a gat - now is you requestin funk?

They said no, E-Roc yelled, "Trick!!"

When we start the revolution all they probably do is snitch

Chorus: Boots

When we start the revolution, all they probably do is snitch

When we start the revolution, all they probably do is snitch

When WE start the revolution, all they, probably do is SNITCH!

..

When we start the revolution, all they probably do is snitch

When we start the revolution, all they probably do is snitch

When WE start this revolution, all they, probably do is SNITCH!

[Boots]

I used to work at Mickey D's

And to my old buster-ass manager, licky DEEZ

Had me workin on hands and knees, scrubbin grease

And in the summer with the oven on, it's hundred-ten degrees  
I would despise flippin fries, I guess his bitch-ass  
thought he was the shit, with his little red and gold tie  
I asked him why I couldn't get mo' hours  
He said it must be cause I lacked the mental powers  
If I was smart then I would be in his position  
I left his nose in a busted up condition  
Only came back for my last check to pay me off  
He told me then, that he wasn't gonna lay me off  
Said I should quit and it would be to my enjoyment  
I fell for it and couldn't get my unemployment  
To ALL the managers, on ALL the shifts  
When we start this revolution, all y'all probably do is snitch!

Chorus

..

[Boots]

Now hella my folks got respect for you, killa  
Wit a raised black fist, and a pocket full of scrilla  
Cap peelers want your autograph, say you know the path  
But I do the math, my game bursts, like a bubble in the bath  
Punk asses like you is just here for confusion  
Be abusin rhetoric, and it's slightly amusin  
You be cruisin all the networks, Ebony and Jet works  
'long witcha efforts, now what's yo' net worth?  
If you ain't talkin bout endin exploitation  
Then you just another Sambo in syndication  
Always sayin words that's gon' bring about elation  
Never doin shit, that's gon' bring us vindication  
And while we gettin strangled by the slave-wage grippers  
You want to do the same, and say we should put you in business?  
So you'll be next to the rulin class, lyin in a ditch

Cause when we start this revolution, all you probably do is snitch!

(snitch.. snitch.. snitch.. snitch..)

Chorus

[ragga chat]
