

# Fireworks

## The Crash

Open your eyes  
Look up tonight  
In the scariest dark,  
hides a marvelous spark.

I know that fire works  
I've seen the fireworks  
Down here, a higher world  
I've seen you.

Sparkles flew  
as brightness blew  
First a heavenly glow,  
then the coulours explode.

And I know that fire works  
I've seen the fireworks  
Down here, a higher world  
I've seen you.

Now I know that fire works  
I've seen the fireworks  
Down here, a higher world  
I've seen you.
