

## Pluto Drive

### The Creatures

Let's go to Pluto, the atmosphere's clear  
We'll be really cool there with nothing to fear  
Let's go to Pluto, it's cold and it's damp  
Where children are heroes, death is high camp

I wanna see Pluto... I wanna have fun  
I wanna turn blue under an alien sun  
Oh let me see Pluto, it seems such a gas  
With oceans of methane and petrified grass

Let's go to Pluto  
Let's live on the dot  
See the bad moon rising in a lunacy knot

Come one let's do Pluto  
It's really not far  
An unleaded dream drive to the prettiest star  
I want to see Pluto, but maybe I'll wait  
'Til the world turns to meet its plutonium fate  
The days will be long here, the years will be more  
Let's go to Pluto like we did before

Let's go to Pluto  
Let's live on the dot  
See the bad moon rising in a lunacy knot
