

Another Country - Another World

The Crystals

La la lalalala
La la la la
Oh he's from another country
Living in another world
I fell in love the other night
You know it was love at first sight
And though I love him so
I can't let him know just how I feel
La la lalalala ...
'Cause he's from another country
Living in another world
My friends all tell me that I'm wrong
To love a guy that don't belong
But try as I may try
I can't tell them why I feel this way
La la lalalala ...
Yes he's from another country
Living in another world
But I would give my world
Just to be his girl
Oh yes I would
La la lalalala ...
'Cause he's from another country
Living in another world
La la lalalala ...
