

Why Can't I Be Me?

The Cure

I try so hard to be just for you
Careful what I want to know and what I do
Make my second nature all you ever see
You're sure it's the only way to be
Never go too far or ever stay too late
Worry what I think about and what I say
Make this second nature all I ever show
You're sure it's the only one to know
You're sure it's the only way to go
But why can't I
Why can't I believe?
Believe
Why can't I believe?
I don't want to break it down with you
Wondering if I ever did and never who
Take my second nature all you ever need
You're sure it's the only way to feel
Always run it back before I really should
Thin-lipped sorry every time to make it good
Take this second nature, all I ever play
You're sure it's the only one to stay
You're sure it's the only way...
But why can't I
Why can't I
Why can't I
Why can't I
Why
Why
Why can't I be me?
(Simply elegant...)
