Every time I talk to you It's plain to see it's always indecision Plain as all the faces that you know Always turn their back on you And every time you open Up your mouth - shut it You're playing around with my heart Leaving me opened up and bleeding You laugh at me but it's plain to see I'm not going to take this thing You're laying down on me Why don't you open your mind Or, shut it - shut it, shut it Why don't you just shut it! Every time I talk to you It's plain to see it's always indecision Plain as all the faces that you know Always turn their back on you And every time you open Up your mouth - shut it, shut it, shut it Shut it! Why don't you just shut it! Every time you open Up your mouth - shut it
