Sick Of Being Sick

The Damned

It's been long time since I stepped outside Party's only just begun Takes more than a dream to make me want to scream well Gonna have me some fun No way out of this city full of doubt it makes Living seem like a sin I'd better kick some ass Get out real fast I might as well give in Sick of being sick Sick of being sick Sick of being sick Sick of being sick Been a long time since I stepped outside Party's only just begun Takes more than a dream to make me want to scream well Gonna have me some fun No way out of this city full of doubt it makes Living seem like a sin I'd better kick some ass Get out real fast I might as well give in Sick of being sick (you wanna see me ill?) Sick of being sick
