One Two Three Four You crawl to me and I crawl to you And in the middle we meet You drink from me and I swallow you 'cause in my heart the rent is ch I've been staying up way too late You wanna love me girl Don't hesitate I've been staying up and I've been waking up Pray this world will see me now as you do I've never looked so good I crawl through this city and I'm looking for you I chase the darkened streets I call your name darling 'cause it's all I can do I sing to you my sweet I've been staying up way too late You wanna love me girl Don't hesitate I've been staying up and I've been waking up Pray this world will see me now as you do I've never looked so good And if there's a reason to run will you run right back to me And if there's nowhere to go will you come Come to me Come to me I've been staying up way too late You wanna love me girl Don't hesitate I've been staying up and I've been waking up Mmm

I pray this world will see me now as you do And if it was mine I'd give it all to you

I pray this world will see me now as you do I've never looked so good
