

Dandelion

The Damnells

Hey little stick around girl
I want to know why
Why do you turn me outside?
Can't you just turn around?

The money is on the heartbreak
My hands are on the wheel
Hey little kiss a while girl
Didn't I see you cry?

Hey on your saturday high
Even though it's monday night
I see you running away girl
Running since you're 16
My eyes are on the last page
The moneys come and hone
Hey honey what I want is
Whatever you're gonna give
Whatever you're gonna give... to me

I don't want a maybe
Baby let me drive you crazy
Wanna be your dandelion
Don't you go and leave me stranded
I'm empty I'm not second handed
If you give me a little time
I want to be your dandelion

Hey little lonely smile girl
See it behind your ryes
Destination never known
But I'm always there on time
Money is on the heartbreak
My hands are on the wheel
Well hey honey what I want is
Whatever you're gonna give
Whatever you're gonna give... to me

I don't want a maybe
Baby let me drive you crazy
Wanna be your dandelion
Don't you go and leave me stranded
I'm empty I'm not second handed
If you give me a little time
I want to be your dandelion

I don't want a maybe
Baby let me drive you crazy
Wanna be your dandelion
Don't you go and leave me stranded
I'm empty I'm not second handed
If you give me a little time
I want to be your dandelion
