

Bring Me Back To Life

The Dangerous Summer

In the south, where the spirits wander
I will see you in an hour, 95 southbound
Was a long month on the road but I'm coming down
All the chemicals have gone, I'm cleaning myself out

But I must be weak
If you couldn't tell, I couldn't breathe
Bring me back to life now
Bring me back to peace
Give me back the sun now
Can you give it back to me?

In the sound, you're a sea of thunder
I will let your heart devour
Light to my black clouds
Was a long month on the coast but I'm coming down
All the premises of God can't save me from myself

But I must be weak
If you couldn't tell, I couldn't breathe
Bring me back to life now
Bring me back to peace
Give me back the sun now
Can you give it back to me?

But I must be weak
If you couldn't tell, I couldn't breathe
Bring me back to life now
Bring me back to peace
Give me back the sun now
Can you give it back to me?

Bring me back to life now
Bring me back to peace
Give me back the sun now
Can you give it back to me?

Bring me back to life now
Bring me back to peace
Give me back the sun now
Can you give it back to me?
