

Come Along

The Dangerous Summer

I've been drinking here since 3 in the afternoon
I'm alone but I am sitting with my friends all around me
And I'll crash on the floor if you let me come back too
There's a hole in my heart and can't seem to fill it up
There's a hole in my heart and can't seem to fill it up, no

I've come a long, come a long, come a long
Way back from being dead
What the hell am I doing here?
What the hell am I doing here?
I've come a long, come a long, come a long
Way back from being dead
What the hell am I doing here?
What the hell am I doing here?

And we'll smoke in your car with the windows rolled down, yeah
I'm in love with the night cause she's breaking me apart
And the crash from the guard rail felt like something new
When the glass broke I saw everything
There was blood on the shirt that your brother gave you
And lights come pouring in from red to blue
But I swear you look so beautiful
As they're pounding on your chest
Just wake up

I've come a long, come a long, come a long
Way back from being dead
What the hell am I doing here?
What the hell am I doing here?
I've come a long, come a long, come a long
Way back from being dead
What the hell am I doing here?
What the hell am I doing here?

I've come a long, come a long, come a long
Way back from being dead
What the hell am I doing here?
What the hell am I doing here?
I've come a long, come a long, come a long
Way back from being dead
What the hell am I doing here?
What the hell am I doing here?
