

All Aboard

The Datsuns

Welcome a dawn
Sun shining down
But it's 3am
ICBM
It's getting so much hotter
The mercury sings
Green bricks, dirty sounds
It's time to make for safer ground

All, All aboard row heavy water
To go home

Clouds of white, they settle to dust
Flowers spreading seeds
Oh and sick disease
If I could bury deep enough
Straight and arrow through the core
It's time to leave for pearly shores

It's time to make for safer ground
