

At Your Touch

The Datsuns

Hold me close till I feel better
About that girl
About nothing at all

Push and pull in which direction
White lies
To break her fall

I got Glue
Inside
Damn woman
Drives me out of my mind
I got glue
Inside
It keeps my mouth together
Tongue is tied
Yeah, all of the words do stick
Try and pull another
Cheap trick
I got glue
At your touch

Hold me close till I feel better
Says that girl
And now I cannot go
Push and pull in which direction
White lies
To break her fall

I got glue
Inside
Damn woman
Drives me out of my mind
I got glue
Inside
It keeps my mouth together
Tongue is tied
Yeah, all of the words do stick
Try and pull another
Cheap trick
I got glue
At your touch
