```
I'm past the point of no return
Its do or die you see
Oh I'm through with mysteries
Of the beautiful symmetry
```

This is a place I don't care to be
I tip my hat to this make believe
There's no doubt I cant control the pace
No doubt about it
So stamp your feet and

```
Get up ! Don't fight it
Get up ! Don't fight it
```

Hear the conversation, steamy adoration For the phony eccentricity The key to the mind is a cheap glass of wine Take two in the morning and youll be just fine
