

# Waiting For Your Time To Come

The Datsuns

You got your war on science and your dusty roads  
Reverse logic tricks and shadows  
Morbid fascination with other people's souls  
Like watching cars crash, your false bravado

You try to rewrite history  
Add a little mystery  
You're still waiting for your time to come  
You're still waiting for your time to come

Pick up pieces of velvet till you feel so sated  
Beats and treats on the concrete streets  
Well I guess I've been baited oh so

You're still waiting here  
But I won't come around my dear

You're still waiting  
Oh the moment's gone  
Yeah, it's gone

You try, try to rewrite history  
And add your own little mystery  
You try, try to bring it down on me  
And add your own little mystery  
You're still waiting for your time to come
