

# You Build Me Up (To Bring Me Down)

The Datsuns

Tin Loving  
Disguised  
Come join us on the other side  
A false passion

A false cause  
Does it really hurt to be ignored?  
Hey, girl, I never knew

You build me up  
To bring me down  
You build me up  
So you can mess around

You build me up  
To bring me down  
You build me up  
So you can mess around

Everywhere, even your home town  
Finally decides you've made a sound  
They turn their head and stare  
At everything you got  
And make you something you are not

Hey, girl, I never knew

You build me up  
To bring me down  
You build me up  
So you can mess around

You build me up  
To bring me down  
You build me up  
So you can mess around

'Cause it's all about looking  
About looking good
