## **Mean Blue Spirits**

## **The Dead Brothers**

Had a dream last night That I was dead Had a dream last night That I was dead Evil spirits All around my bed

The devil came And grabbed my hand The devil came And grabbed my hand Took me way down To that red hot land

Mean blues spirits Stuck their forks in me Mean blues spirits Stuck their forks in me Made me moan And groan in misery

Fairies and dragons Spitting out blue flames Fairies and dragons Spitting out blue flames Showing their teeth For they was glad I came

Demons with their eyelash Dripping blood Demons with their eyelash Dripping blood Dragging sinners To their brimstone flood

"This is hell", I cried With all my might "This is hell", I cried With all my might Oh, my soul I can't bear the sight

Started running 'Cause it is my cup I started running 'Cause it is my cup I run so fast Till someone woke me up
