

So deeply seeded  
Misreadings viewed as trust  
As a collective monological  
Filled with smiles, deceit and distrust

We're so oblivious, unwilling  
'cause there must be nothing wrong  
Unrelenting self-obsession instrumental  
Fundamental and life-long

The torments of the damned

We are all what we already know  
Misinformed but dying to show  
Bound by illusions with nowhere to go  
Always deluded, scared, irrational

Ulterior motives  
Dispelling all till we're crushed  
With a sickening efficiency  
We continue feeding mistrust

We keep alienating  
We have no recourse  
We are claiming transparency  
Such a lie with no remorse

We are all what we already know  
Misinformed but dying to show  
Bound by illusions with nowhere to go  
Always deluded, scared, irrational

The torment of the damned
