

Now and Forever

The Delgados

This is your life, there are no second chances
Grab all you can, don't look back, keep on marching
Come, come, we'll take life
Come, let's get some life

Even the times when the good looks like ending
Fight it and write it, it's life you're defending
Come, come, we'll get life
Come, let's get some life

There was a time we'd sit on the ground
Never look up from the down that surrounds
If we fail we won't fall
Are you ready to call, now and forever?

Come now, oh come now, we're out and we're loaded
All of the shackles that held hath corroded
Come, come, let's get some
Love, love this one

There was a time we'd sit on the ground
Never look up from the down that surrounds
If we fail we won't fall
Are you ready to call, now and forever?

There was a time we'd sit on the ground
Never look up from the down that surrounds
If we fail we won't fall
Are you ready to call, now and forever?
