

# Disappear

The Devlins

Say you got caught holding the goods  
Everything we talked about  
Just up in smoke the way you see it  
Maybe it hurts just like it should  
Maybe you saw yourself in  
Someone else's perfect figure, I don't care

Did you ever stop to wonder why you're here  
Tell me that you can  
Did you ever stop to wonder why you're here  
See, as of now you'll disappear

You're saying your dreams feel so good  
Standing on the corner, baby  
Shoot the breeze above your knees  
Everything works just like it should  
Finger on the trigger now so click your heels  
And make some deals from now on

Did you ever stop to wonder why you're here  
Tell me that you can  
Did you ever stop to wonder why you're here  
Pretty soon you'll disappear

In the meantime I guess all life is in your hands  
It didn't work out like you planned, it didn't

So tell me when you come around, could you hear that sound?  
When you come around, can you hear that sound?  
Tell me when you come around, baby, can you hear that sound?  
Oh when you come around, did you hear that sound?

Waiting for the curse that will not come  
Try to rearrange yourself  
But nothing you can do could change it  
Now everything adds up to one  
It's raining in your head but look outside  
The sun's still shining, so don't ask why

Did you ever stop to wonder why you're here  
Tell me that you can  
Did you ever stop to wonder why you're here  
See, as of now you'll disappear

Pretty soon you'll disappear  
Yeah, I'll watch you disappear  
As of now you disappear  
Disappear, oh, yeah
