

# I Don't Want To Be Like This

The Devlins

I see you're angry with the things you did  
And I know you will be lost until  
You find a reason that can make you see my wish

And now I'm watching as you swing your dress  
And your friends may cool your own distress  
But you could change it all with just one kiss, one kiss

'Cause I don't want to be like this for too long

And the words are racing through my head  
But they need to come from you instead  
So close your eyes and think of all the things you miss

'Cause I don't want to be like this for too long

The days are growing colder now  
And I'm lost when you don't come around  
But you could change it all with just one kiss, one kiss

'Cause I don't want to be like this for too long
