

# Come Back Around

The Dirty Heads

Feel like 10 years  
One night we were heart to heart  
Too much too soon  
We both knew it from the start  
Can't you see I'm waiting for a way to weigh you down  
I tried to live my life without you here but don't know how

Can you come back around now  
Come back around now  
Don't let me down now  
Lost and I'm found now  
Won't you come back around now  
Come back around now  
Don't let me down now  
Lost and I'm found now  
Can you come back around now

Livin life alone ain't livin life at all  
If I lost you I'd feel I lost it all  
If I had to give up all I have to  
Spend another day by your side I would gladly  
Take away your bad dreams  
Watch 'em float away in the night with the fall leaves  
I just want to know you're alright when I'm calling  
I just want you here by my side in the morning, yeah  
And like the meadows of a foreign land  
I get so lost in the presence of your innocence  
And all I wanna be is by you  
Never will you let these laws of love defy you  
Never will you be alone if I can find you  
All I ever want to do is sit beside you  
And take it in  
As our hearts beat  
Cause in the end  
It's you and me

Can you come back around now  
Come back around now  
Don't let me down now  
Lost and I'm found now  
Won't you come back around now  
Come back around now  
Don't let me down now  
Lost and I'm found now  
Can you come back around now

What are you waiting for, what are you waiting for?  
What are you waiting for?

Can you come back around now  
Come back around now  
Don't let me down now  
Lost and I'm found now  
Won't you come back around now  
Come back around now  
Don't let me down now  
Lost and I'm found now

Can you come back around now

Come back around now

Come back around now

Don't let me down now

Lost and I'm found now

Won't you come back around now

Come back around now

Don't let me down now

Lost and I'm found now
