

# Disguise

## The Dirty Heads

The one life to live so Ima live it  
The one chance to give so Ima give it  
All that I have with no limit  
We made it this far but it's only the beginning

Got my eyes set strictly on the prizes  
Standing in my own two shoes my whole life is  
Easier said than done but I survive it  
Aim for the stars dream big and don't hide it

I got my head up in the clouds now  
I'm so high I'm never coming down  
I like living up here watching life from the sky  
Everything becomes clear

And as the mist rises I can see horizons  
A new day has dawned I'm just happy to be alive  
Ima make it to the top and if not I die trying  
If I'm lying watch my nose grow Barbara Streisand

I got my head up in the clouds now  
I'm so high I'm never coming down  
I like living up here watching life from the sky  
Everything becomes clear

When life is boring  
Write your own story  
In skies you're soaring  
When life is surreal  
Put on your disguise  
And just live in the sky  
Put on your disguise  
And just live in the sky

I've seen things I just can't explain  
I've seen the fire and I've seen the rain  
I've been places and ask questions  
But was told that my answers were blowing in the wind

So now I follow the purple haze  
All the way through the everglades  
I've broken to to the other side  
Just to find myself building castles in the sky

Never rise up I can see reality below me  
Flowing on a dream to the house of the holy  
Hands clinch tight praying death come slowly  
Cause life is too short to give up what you're holding

I got my head up in the clouds now  
I'm so high I'm never coming down  
I like living up here watching life from the sky  
Everything becomes clear

When life is boring  
Write your own story  
In skies you're soaring

When life is surreal  
Put on your disguise  
And just live in the sky  
Put on your disguise  
And just live in the sky

When life is boring  
I chill on story?  
And the sky is so ream  
When life is so real  
Throw it up in the sky  
And this living skies  
Running in the skies  
This living skies

When life is boring  
I chill on story?  
And the sky is so ream  
When life is so real  
Throw it up in the sky  
And this living skies  
Running in the skies  
This living skies
