

## Tender Boy

The Dirty Heads

I wish Bob Dylan had a problem with me  
I would take a couple caps with him and squash up the beef  
Wish I could talk to Johnny Cash and I would hand him some leaf  
Sip on Johnny Walker get advice for my peace  
He'd say

In all the wilds we were pretending  
All the nights were never ending  
They went on and on and on  
While the world outside was ending  
We go on and on and on

I let the piano play inside my head until I'm elevated  
I stay away from all the bullshit it's contaminated  
I let the smoke fill up my room until I'm acclimated  
And everyday is fucking beautiful, let's celebrate it  
And I just want to hear this melody play on forever  
These words they roam around my head until they form together  
And I just want to get so lost in this moment  
That we never find our way out and so endlessly we floatin' on

In all the wilds we were pretending  
All the nights were never ending  
They went on and on and on  
While the world outside was ending  
We go on and on and on

In all the wilds we were pretending  
All the nights were never ending  
They went on and on and on  
While the world outside was ending  
We go on and on and on

In all the wilds we were pretending  
All the nights were never ending  
They went on and on and on  
While the world outside was ending  
We go on and on and on
