

Hurricane Part 2

The Dirty Youth

We built up our lives and we tore it apart I'm done
We had our last fight together no one won
You said you'd fight for me, die for me but you just turned away
And I just can't take the feeling of being abused this way

You can't stop the rain when it starts to pour
Never forget what you're living for
If we all move together
We'll start a hurricane, we'll start a hurricane
So lift up your hands if you want more
We'll take on the world, what you waiting for?
If we all move together
We'll start a hurricane, we'll start a hurricane

We'll start a hurricane
We'll start a hurricane

We built up our lives and we tore it apart I'm done
We had our last fight together no one won

You can't stop the rain when it starts to pour
Never forget what you're living for
If we all move together
We'll start a hurricane, we'll start a hurricane
So lift up your hands if you want more
We'll take on the world, what you waiting for?
If we all move together
We'll start a hurricane, we'll start a hurricane

We'll start a hurricane
We'll start a hurricane

You can't stop the rain when it starts to pour
Never forget what you're living for
If we all move together
We'll start a hurricane, we'll start a hurricane
So lift up your hands if you want more
Lift up your hands, lift up your hands
Lift up your hands
We'll start a hurricane, we'll start a hurricane

We'll start a hurricane
We'll start a hurricane
We'll start a hurricane
We'll start a hurricane
