

# Narcissistic Cannibal

The Dirty Youth

Don't wanna be sly and defile you  
Desecrate my mind and rely on you  
I just wanna break this crown, but it's hard when I'm so rundown  
And you're so cynical, narcissistic cannibal  
Time to bring myself back from the dead

Sometimes I hate the life I made  
Everything's wrong everytime  
Pushing on I can't escape  
Everything that comes my way  
It's haunting me, taking its sweet time

Holding on I'm lost in a haze.  
Fighting life to the end of my days.

Don't wanna be rude but I have to.  
Nothings good about the hell you put me through  
I just need to look around, see the life that has come unbound.

And you're so cynical, narcissistic cannibal  
Time to bring myself back from the dead

Sometimes I hate the life I made  
Everything's wrong everytime  
Pushing on I can't escape everything that comes my way.  
It's haunting me, taking it's sweet time.

Sometimes I hate the life I made  
Everything's wrong everytime  
Pushing on I can't escape everything that comes my way.  
It's haunting me, taking its sweet time.

Holding on I'm lost in a haze.  
Fighting life to the end of my days.

Holding on I'm lost in a haze.  
Fighting life to the end of my days.
