

Coughing

The Dodos

Not like you to give a shit anyway
Always coughing, always coughing
Not like you to give a shit anyway
(All along it was effortless)
Always coughing, always coughing
(Always effortless, always effortless)

My mind's made up now and I say
Call it off again
One stays on, another gets away
Let 'em get ahead

One in two will
One in two will
At last I see you

All along it was effortless
Always effortless, always effortless
Not like you to give a shit anyway
(All along it was effortless)
Always scoffing, always scoffing
(Always effortless, always effortless)
Not like you to give a shit anyway
(All along it was effortless)
Always scoffing, always scoffing
(Always effortless, always effortless)

One in two will
One in two will
At last I see you

How could I ever ask you
To be more than I need?
How could I ever
Expect you to be more than I am?
How could I ever ask you
To be more than I need?
