

Ridin' the Dark

The Dogma

It's all you need
All you're feeling... You don't care
But you believe it's a way to kill the pain

The needle..The key to "Neverland"
Can't see it... Your plastic paradise will turn to hell

Ridin' the dark
Escaping the demons of the past
You know it, your life's running fast
You riding the dark

Can't stop it now
All you need is in your hands
Once you were a man, now you're turning into a slave

The needle..The key to "Neverland"
Can't see it... Your plastic paradise will turn to hell

Ridin' the dark
Escaping the demons of the past
You know it, your life's running fast
You riding the dark

Riding the dark facing the madness you hide inside your
mind
A journey will start never give up!
Ridin' the dark
