

# She's Out of Control

The Donnas

She comes knockin' on your front door  
She spills her drink all over your floor (woah)  
She is impossible to ignore  
Flames keep getting higher  
She's on fire

She wants to dance all over the place  
She brings her own stash just in case (woah)  
All dressed up in leather and lace  
Flames keep getting higher  
She's on fire

You wanna catch her but she'll never slow down, heh  
You wanna find her but she's never around, heh  
You know it drives you crazy when she says no  
When she lets go  
She's out of control

She's got a name everybody knows  
She gets in everywhere she goes (woah)  
When she's in town the doors never close  
Flames keep getting higher  
She's on fire

You wanna catch her but she'll never slow down, heh  
You wanna find her but she's never around, heh  
You know it drives you crazy when she says no  
When she lets go  
She's out of control

You'll do anything to see her  
You'll never wanna leave her  
You know you can't believe her  
She's dangerous  
But you need her

Flames keep getting higher  
She's on fire

You wanna catch her but she'll never slow down, heh  
You wanna find her but she's never around, heh  
You know it drives you crazy when she says no  
When she lets go  
She's out of control
