If He Likes It Let Him Do It

If he forgets you He forgets you for good If you wanna feel You better start searching some more Because it was a happy time Now it's winter time And you're cold

If he likes it let him do it If he likes it let him do it

I could never be a soldier So I won't make you stand so tall And tonight's the night When there's light in your eyes And you say goodbye Or I die

If he likes it let him do it If he likes it let him do it

If he likes it let him do it If he likes it let him do it If he likes it let him do it If he likes it let him do it The Drums
